

PO-HUNG LIN

Product and UI/UX Designer

Professional Summary

Product and UI/UX Designer with 6+ years of experience designing SaaS and platform products across career-tech and e-learning. I turn complex requirements into clear user flows, scalable design systems, and developer-ready interfaces that support both user needs and product goals, with strong collaboration across PM, engineering, SEO, and marketing teams.

WORK EXPERIENCE

Self-Directed Projects · **Product Builder** Independent

Apr.2026 - Present

- Built a job-search assistant for role matching and tailored application drafts, plus an interactive badminton site that turns real play logic into game mechanics.
- Scope and prioritize MVPs by defining the user problem, core flow, and product trade-offs before moving into design and implementation.
- Use generative AI to accelerate implementation and testing while retaining responsibility for product direction, UX decisions, and final quality.

Resume Genius · **UI/UX Designer** Full-time

Jul.2022 - Apr.2026

- Owned and maintained the company-wide design system, defining reusable components, UI patterns, responsive guidelines, and developer-ready specifications to improve consistency and implementation efficiency.
- Redesigned high-traffic product and marketing experiences, including navigation, template cards, upload flows, and resume-related landing pages, balancing conversion goals, usability, SEO needs, and technical constraints.
- Improved usability and engagement by 24% through iterative UX reviews, interface refinement, and data-informed design decisions.
- Built interactive prototypes and mockups to simulate real product behavior, helping PMs, engineers, and stakeholders align on interaction details before development.
- Collaborated with cross-functional teams across design, engineering, SEO, and marketing, including remote engineering teams in India, to deliver scalable web experiences.
- Applied AI-assisted analytics and UX analysis to identify usability issues, validate design hypotheses, and support product optimization.

Plural · **UI/UX Consultant** Freelance

Dec.2022 - Nov.2024

- Delivered UX consulting and product design support, including competitive analysis, sitemap planning, page-level architecture, customer journeys, and user flows.
- Designed wireframes and high-fidelity mockups for backend systems, user dashboards, and a blog-style content editor to improve workflow clarity and usability.
- Created a visual design foundation from scratch, including color, typography, spacing, layout rules, and reusable UI patterns.
- Organized Figma files and design documentation to support clearer collaboration and future product scalability.

YOTTA · **Sole UI / UX Designer** Full-time

May.2020 - Jun.2022

- Served as the sole UI/UX designer, owning end-to-end design across user research, user flows, wireframes, UI design, prototyping, and developer handoff.
- Designed feature-driven interfaces for student, teacher, course, checkout, and campaign-related experiences, aligning product functionality with user needs.

- Improved user flows and content hierarchy across course browsing and purchase-related experiences, using Google Analytics and stakeholder feedback to guide UI/UX refinements.
- Created micro-interactions and animated SVGs to enhance user engagement.
- Collaborated closely with front-end, back-end, marketing, and cross-functional stakeholders to deliver product features and sub-brand initiatives.
- Extended mascot and visual assets into a cohesive brand series used across product and marketing touchpoints.

Brokery / Govern Agility · **Web UI Designer** Freelance

Nov.2019 - Mar.2020

- Designed UI elements, animated visuals, and user flows for Webflow-based web projects.

EDUCATION

Master of Interaction Design
Monash University.
Melbourne VIC, Australia

Graduate Certificate of Design
University of New South Wales.
Sydney NSW, Australia

Bachelor of Biomechanical Engineering
National Chung Hsing University.
Taichung, Taiwan

SKILLSETS

PRODUCT DESIGN

UI/UX | Interaction Design | RWD | Design Systems | Prototyping

UX STRATEGY

User Flows | Information Architecture | Competitive Analysis | UX Audit | Journey Mapping | AI-driven Analysis

EXECUTION

Wireframing | High-fidelity UI | Developer Handoff | Micro-interactions | HTML/CSS | Basic JavaScript

TOOLS

Figma | Jitter | Webflow | Google Analytics | Microsoft Clarity | Mobbin | Svgator | Codex | Claude | ChatGPT | Gemini | Antigravity | NotebookLM | Uizard | Higgsfield | Stitch

LANGUAGE

Mandarin : Native

English : Advanced

STRENGTHS

- [x] Product Ownership
- [x] Structured Problem-Solving
- [x] Self-Learning
- [x] Critical Thinking
- [x] Collaboration

SELECTED PROJECTS

Resume Genius Design System
created reusable components and responsive patterns for consistent product delivery.

Template Section Redesign
Simplified template browsing with clearer hierarchy and progressive disclosure.

Mobile Navigation Optimization
Improved mobile navigation through refined interaction patterns and usability testing.

Job Hunt Assistant
Built an AI-assisted workflow for role matching and tailored application preparation.

Interactive Badminton Experience
Translated real badminton logic into understandable interactive game mechanics.
